Zambian Economist

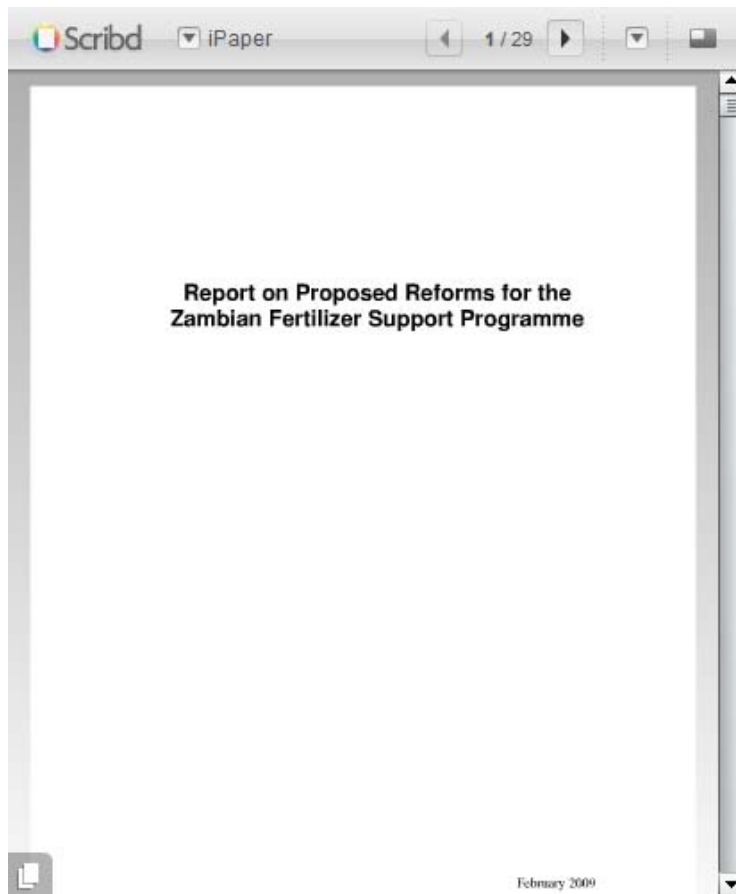

Economic perspectives on Zambia...

THURSDAY, 19 FEBRUARY 2009

FSP Reform Report

A representative study team of major agricultural industry players and stakeholders was established by the Ministry of Agriculture and Cooperative (MACO) following a Cabinet directive to review the FSP implementation, with the view of coming up with recommendations for improved FSP future implementation, effectiveness and efficiency. Their report is set out below for your consumption and comments! This is a bit of a *Zambian Economist* exclusive as the report is not yet electronically available anywhere on the internet!
